10 December 1970

MEMORANDUM FOR: Director, National Photographic Interpretation Center

SUBJECT : Annual DoD Mapping Priority Review

1. The Defense Intelligence Agency has requested a statement of CIA's current and long range map requirements for use in a DoD mapping priority review covering the FY 1973-1980 time frame. The CIA requirements will be considered for integration with DoD requirements and the consolidated result furnished to the military departments as guidance for map production schedules.

2. The CIA response to the request is being prepared by this Division. It would be appreciated if we could be notified by phone before COB 15 December 1970 of the officer in your component who will be designated to formulate your requirements for maps and charts during the stated time frame. During the previous review your organization was represented by

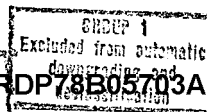

X1

3. Requirements must be specific as to the area for which coverage is needed, the scale of desired coverage, and the time span during which each is needed. An area of major concern to DIA is the magnitude of the CIA requirements for large-scale map coverage in the USSR-CPR areas. The DoD requirements for coverage of these areas have been recently reviewed and are more selective than formerly. DIA has specifically requested careful review of CIA requirements for these areas.

4. Another matter for consideration is that of specifications for accuracy requirements and type of product that will satisfy the CIA needs. Consideration should be given, for example, to whether photomaps or other graphics can substitute for conventional city maps and large scale topographic maps, especially in some of the lower-priority areas.

5. The JCS-approved definitions of priorities for the submission of mapping, charting and geodetic requirements are enclosed, to assist in an interpretation of the priority which should be assigned to each mapping requirement.

6. Assistance in preparing the requirements may be obtained from the responsible area branch within Geography Division through the action officer, 

25X

7. It is requested that your completed statement of requirements be furnished to Geography Division prior to COB 5 January 1971.
